Card of Thanks to Dr Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong, which charge, I may also say, was reasonable. My complaint was neuralgia. WILLIAM McCORMICK.

THE BRITISH COLONIST.

Sunday Morning, June 2, 1872.

Railway—Land—Colonization.

Time was when the Hon George Brown and his *Globe* were regarded, even on this Coast, as the chief expo nents of a great national polli y which duly appreciated the Westward course of Empire. Time is when they are re: garded with aversion, as the disguised enemies of a policy which can alone found a British Empire on this continent. Dealing with the Railway the *Globe*,—which is George Brown—takes very decided exception to the provision for a land grant. It says:—"The proposal, it will be observed, is to give alternate blocks of twenty miles in depth on either side of the line, and to make the total grant fifty millions of acres. If any one will multiply the two thousand by forty, and then by six hundred and forty, the number of acres to a mile, he will find it amounts to fifty-one millions two hundred thousand acres. Half of this would go to the Company undertaking to construct and work the road; but that would not be thirty-five millions, as Sir George assert-ed, but twenty-five million six hundred acres. Here then another special proviso of the Bill comes into play. The fifty million grant must be made up somewhere, and the Government takes powers to allot other tracts of land to the Company, until the total is reached, from such portions of the Dominion Territory as are under Federal control. * * * * Settlement is the thing above all others to be aimed at, and the question is whether settlement would not be retarded instead of advanced by lock-ing up 25 millions of acres in the hands of a corporation, and in effect pawning the rest as security for our bonds." Three days later, writing upon the same subject he says:—"We have no wish to exaggerate the difficul-ties which lie in the way of the construction of the Pacific Railway. We desire to see it built whenever it can be done in a prudent and judicious manner. But to give out the construction of this road in a single contract at the present time, as is contemplated by the Ministerial measure, seems to us an act of midsummer madness. * * * * The Government propose to give fifty millions of acres to the company, and they do not know whether there are fifty millions of acres avail-able. They do not know its value if the land does not exist; yet power is asked from Parliament to make this bargain now. * * * We have little doubt but that for a very moderate sum in cash that road can be con-structed, and the whole of the fifty millions of acres which the Government now propose to hand over to men of their own selection may be devoted to the settler free of charge, except possibly the cost of surveying. Many of the Western States have been seriously retarded in their progress by the locking-up of the lands by great railway companies. * * * * To make a bargain now when so little of the country is known, and hand over perhaps every acre of good land available for immediate settlement to Tom, Dick or Harry, American, English or French, to be dealt with as they please, would be an act of madness. We cannot believe that the representatives of the people of Canada will give their endorsation to any such scheme." These extracts will enable the reader to form a tolerably correct conclusion as to the ground upon which the *Globe* proposes to endeavor to vamp up public opinion in opposition to the policy of the present Government. The people of Canada are asked to believe that to place these alternate blocks of land at the disposal of the Railway Company would be to entail lasting and untold evil upon the coun-try, by impeding settlement &c., and the ex-perience of the Western States is alluded to in support of the position. Now, the writer in the *Globe* must either be very ignorant or very dishonest. The experience of the Wes-tern States presents the strongest possible arguments on the other side of the question. There it has been found that Railway Com-panies have proved to be the best colonizing mediums yet discovered. Look at the Union Pacific, the Northern Pacific, and the Ne-braska schemes. Each is represented in the European centres of population, by hundreds of shrewd and energetic agents, through whose instrumentality population is pouring into the new world by hundreds of thousands, until we have seen chains of settlements span-ning the continent and towns and cities springing up as if by magic along the res-pective routes. Take, for instance, the Iowa and Nebraska scheme. Although only about a year old, it has several hundred agencies at work in Europe, and is circulating pamphlets and maps by the million. It has formed a chain — of British blood and muscle — of settlement, dotted thickly with towns some of which already number their inhabitants by thousands. Such has been found to be the practical result of making large grants to Railway Companies in the Western States; and yet, in the face of such a record, the *Globe* deprecates the adoption of a similar policy by the Dominion Government in re-spect to the Canadian Pacific Railway. It is impossible to give the *Globe* credit for sin-cerity in this course. Common sense would tell one that the Company in whose hands these blocks of land may be placed would find their true interest to lie in promoting settlement and development by every pos-sible means within their reach. Talk about "locking up land" and impeding settlement! Is it conceivable that a Railway Company would find it to their interest to maintain in its wilderness state a country through which they must build, equip, and *operate* a rail-way? Surely every consideration of self-interest would urge them to an opposite pol-icy. And we are firmly convinced that no more effective method of forming a belt of settlement from Ottawa to Victoria can poss sibly be devised than by placing a certain portion of the lands along the projected line of travel in the hads of whatever Company may undertake the construction and opera-ting of the Canadian Pacific Railway. In-deed, so convinced are we on this point that we would regard it as the best possible dis-position of the land. We regard it as one of the best features of the scheme that it will place fifty millions of acres of land in the hands of a powerful organization, whose high-est interest it will become to put settlers up-on it as speedily as possible. If the *Globe* can hit upon no better ground of opposition to the present Government and the great railway and colonization scheme, it had bet-ter bide its head, for no sensible person will longer be able to give it credit for honesty or patriotism.

This gentleman will be a Candidate for re-election to the Commons for Victoria City.

A Whilom B. C. Lecturing in England.

The Oxford *Times* devotes a column to a lecture delivered in the town of Oxford by the Rev. E. White, formerly of British Columbia, upon the subject of emigration to Canada. The lecture was delivered before a very large audience and, according to the *Times*, it was able, interesting, instructive, eminently practicle and very well received. Mr. White never forgets to put in a good word for the Pacific Province, and on this occasion, although lecturing under the auspices and in the immediate interest of the Ontario Government, he spoke of the climate and resources of British Columbia in terms which could scarcely fail to be productive of good. His chief business being to present the advantages offered by Ontario and urge her superior claims to the favorable consideration of persons proposing to emigrate, the lecturer gave a graphic description of backwoods life in Canada and presented an admirable panormanic view of the country and the Government scheme for settling it up. He dwelt especially upon the admirable educational and other institutions of the county, showing that with all the freedom and advantages of English life the settler could, with industry and economy, attain a competency in the course of a few years, and spend his days in comfort under his own roof-tree, free from the molestations of cruel and exacting landlords. A thinning of the laboring classes in England, he thought, would conduce to the wellbeing of those who went and those who stayed; but he advised no one to leave home, contenting himself with presenting, as correctly as he could, a view of the new country which offered free homes to millions, leaving it entirely to the judgment of those most interested to decide that point for themselves. Mr. White's address, says the *Times*, was well received throughout and loudly applauded during its delivery and at its close. In response to an earnest request, Mr. White consented to delivery another lecture in the Town Hall, to be presided over by the Mayor. The second lecture was to treat particularly upon the pauper aspect of the question. When shall British Columbia put in an appearance?

EMIGRATION FROM IRELAND. — The intelligent Cork correspondent of the Boston *Pilot* says that the depopulation of Ireland is going on faster than ever. He thinks that about 4,000 of the population leave the country weekly from the different ports. From Queenstown alone 2,000 a week go. Whole hamlets are left to the old and poor; and agricultural labor is hardly to be had at any price. The considerable cities, Limerick for instance, are hastening to decay. The writer is of opinion that some strong effort should be made in the United States to discourage this outflow; and that the emigrants might do quite as well or even better by remaining at home. Agricultural laborers especially are in the greatest demand. It is useless, however, to discuss the matter. It must be permitted to regulate itself, and if anything were done, it would probably be a blunder, and failing of its purpose, work only mischief.

EXCURSION TO SAN JUAN.—The steamer Maude arrived at 8:45 last evening from San Juan, with about 350 excursionists. During the day a special foot race of 100 yards was got up between Mr. Hugh Price and Mr. Knott, one of the California cricketers, for some $250. Price got away with the lead and won easily. The day's amusement passed off pleasantly and all the excursionists came back in high spirits and well pleased with the trip. A band of music was in attendance during the day and discoursed sweet strains, whilst the company tripped the light fantastic toe. Amongst the party were Mr. Marcus Smith and Staff and Mr. Dewe.

HIGHWATER INCIDENT.—Cottonwood River and Lightning Creek are very high. Chief Justice Begbie and Registrar Pooley, while attempting to ford the former stream, a few days ago, in a trap, the vehicle settled down in a deep hole and the trap, passengers and all, were all but swept away. The Chief Justice and the Registrar, being of tall stature, waded out of the peril, where shorter men would have drowned; and the driver, horse and trap, were saved with considerable difficulty.

A SYNOD FOR BRITISH COLUMBIA.—Archdeacons Woods and Reece have issued a circular letter to the Clergy of the Diocese, pointing out the desirableness of establishing a Diocesan Synod for British Columbia and suggesting that steps be taken for that purpose. The step would appear to be highly proper. In each of the other Provinces such a Synod exists, and British Columbia Churchmen should not continue in the present isolated and inorganized condition.

MEETING.—There was a meeting of the Farmer's Club yesterday afternoon at Messrs. Allsop & Co.'s office. There was a full attendance, Dr. Tolmie in the Chair. It was proposed to hold an Agricultural and Horticultural Show, on or about Oct. 10th. A proposed prize list was drawn up and it was resolved in the meantime to canvas the town for subscriptions.

THE LANE & KURTZ.—This Company, after suspending work for a few days to clean up and repair, resumed operations in the shaft on the 28th.

THE Sir James Douglas arrived from Sooke at 7 p.m. last evening with Mr R Plummer and son as passengers.

Grants of Mining Land.

Mr. Barnston, one of the candidates for the Assembly at Cariboo, has deemed it prudent to publish the following card. The necessity for the publication would appear to indicate that any further large grants of mining lands at Cariboo will be regarded unfavorably by the miners:

TO THE ELECTORS OF THE CARIBOO DISTRICT.

Barkerville, May 24th, 1872

As reports have been circulated in this district to the effect that I am in favor of a large grant of Mining Ground on Lightning Creek being given to parties applying for the same. I beg now to state, once and for ever, that all such reports are totally false, as I am altogether opposed to any grant of mining ground being given "where individual Free Miners are in actual occupation of any part of the premises, UNLESS BY THEIR CONSENT." The words quoted are the words of the Statute, and it is needless for me to state that the matter virtually rests altogether with the miners in the section affected.

I have the honor to be, Gentlemen,

JOHN G. BARNSTON.

CRICKET.—The movements of the Cricketers are not finally decided. It is proposed to play the first of the new series of matches on Monday at Colwood, at 11 a. m., and on Monday week, Esquimalt Fleet vs. Californians at Colwood, at 9 a. m. Further than this nothing is finally decided, Whether the match on Wednesday at Beacon Hill is to be between the Californians and a picked eleven, or the second fifteen is not yet known for certain.

AT TETE JAUNE CACHE.—A letter from Mr. Mahood's party, dated the 1st of May at Tete Jaune Cache, states that they had reached the Cache with all their supplies, and that Mr. Mahood was surveying Leather Pass. The supplies were brought up the Fraser under Mr. Dickey's charge in boats. Mr. McLennan had not then reached the Cache. The weather was very fine; snow had disappeared and vegetation was quite forward.

ECKSTEIN'S HOTEL.—This delightful place of summer resort is now prepared to receive families and others who wish to escape the turmoil and heat of city life. The very best accommodation may be obtained at the Hotel which approaches nearer to an English inn in point of comfort than any other in the Province. Fishing and shooting parties will find boats and other conveniences at this house.

H.M.S. SPARROWHAWK. — This war vessel sailed at 8 o'clock yesterday morning for New Westminster with the following passengers:—His Excellency the Lieutenant-Governor, Mrs Trutch, Miss Pinder, Miss Douglas, Mrs W C Ward, Hons. McCreight and Robertson. Capt Cooper acts as pilot.

FROM NEW WESTMINSTER.—The steamer Enterprise, with the following passengers, arrived at 3 o'clock yesterday afternoon:—Mrs Reece, Mrs Nelson, Rev. Reece, Dr Trevor, and Messrs Nelson, Ross, Marshall, Stahlschmidt, Ogilvy, Robinson, Stevenson, W H Brown.

FRUITS.—We were informed by a gentleman on Thursday that he had that morning picked ripe strawberries and salmon berries near Beacon Hill, and in Mr Piper's window may be seen green peas and gooseberries!

ACCIDENT.—We are informed that one of the men on the Elk Lake survey party has cut his foot badly with an axe. The wound extends from the little toe to the heel of the left foot.

CLERK OF THE BENCH.—Dr. Frank Trevor, the lately appointed Clerk of the Bench at Nanaimo, arrived yesterday from Quesnelmouth to assume his new duties.

THE HAY CROP.—Farmers hereabout have been cutting hay for a week past. The crop will be immense, the season having been especially favorable for hay.

BOARD OF EDUCATION.—This body met yesterday and proceeded to examine candidates for the position of teachers in the public schools. The examination will be continued tomorrow.

WITHDRAWN.—Col Lane has withdrawn his application for a lease of the Meadows on Lightning Creek.

GONE AT LAST.—The dead house has been falling for a long time, but it came down entirely from its stilts a few nights ago.

FOOTRACE.—We are informed that a race of 100 yards is on the *tapis* between one of the Californian and one of Victorian cricketers.

THE COMMONS.—Mr Nelson (the Dominion Herald announces) will be a candidate for re-election in New Westminster District.

KEEP COOL.—Alex, Philips has been appointed Victoria Agent for the sale of the Puget Sound Co.'s ice.

DECLINES.—Mr Charles Wilson of Cariboo declines to become a candidate for the local House.

THE Lieut-Governor will remain at New Westminster for about a fortnight.

FRESHET.—The Sentinel fears an unusually heavy freshet on William Creek.

TREASURE.—Barnard's Express brought $30,000 in treasure for the Banks yesterday.

LOS ANGELOS, May 31.—The stage from Lone Pine yesterday made the trip in fifty-four hours, the quickest time ever made on the route. Col. Whipple, one of the passengers, says that for four days past there have been continuous shocks of earthquake in Owens River Country, none heavy. Two weeks ago there were heavy shocks, causing great excitement. There is but little suffering, the Relief Committee having acted promptly.

SALINAS CITY, May 31. — Crops in this section looking splendid and will far exceed expectations.

SALT LAKE, May 31. — Great destruction of property is reported along the mountain streams, freshets have began on the American river and all the bridges have been carried away.

Rev W. M. Punshon at Brooklyn.

The following is the New York World's report of the speech delivered by Rev. Mr. Punshon, before the Methodist Conference at Brooklyn:—

Rev W M Punshon, who represents the British Conference, on being introduced said: We want everybody to help us fight the battle out in which with all our souls we are engaged. The time has gone past when Methodism could be laughed at; the time exists no longer when Methodism can be treated as an institution that may be permitted to do a little guerilla work in the name of Christ. It is now hailed as an energetic power; it has its representatives in the councils of the nation, and it sits by the side of the learned—as learned as they—in the Committee on Biblical Reform. This state of public opinion may fluctuate, and even our success is a matter that may be fraught with danger to the warmth of the church, I admit, but I see every reason for rejoicing in these ampler chances that our church is getting to do good. Times of obscurity are the times for testimony and martyrdom, but when God has missionary work to do he stills the waters and the only fire is the lambent flame of the Holy Ghost. While British Methodism holds as strong as ever to old principles it has become flexible of late, and there is not that disposition to stick to old ruts, hence we see lay delegates all over doing good and effecting service. In London, as you have been told, fifty churches are being erected, and a thoroughly organized campaign is to made upon this mighty stronghold of sin, which, like the ocean, keeps throwing up its slime upon the shore. I think that the ministry has lately been stirred up with new zeal, and felt a mighty impulse to work more than ever upon the simple plan of salvation. The disposition that seemed once to be in the ascendency appears now to be going down—that of being original, of being more original even than Jesus Christ. There has been much humiliation of late, and the result of that has been a spirit of dependence upon God that must lead to immortal freedom. The world is the same to-day, humanity remains in its needs unchanged; it cares for no originality but the original gospel of Jesus Christ. It may robe itself in the gay garments of civilization, but there is the old sorrow gnawing at the vitals. Physical science, infidelity, formalism, superstition—what are they but husks offered to the heart that can be refreshed with nothing short of the word of the living God?

Josh Billings Insures his Life.

I kum tew the conclusion lately that life wus so uncertin that the only wa for me to stand a fair chance with other folks wus to get my life insured, and so I called on the agent of the Garden Angel Life Insurance Company, and answered the following questions which was put to me over the top ov a pair ov goold specks, by a slick, little fat, old feller, with a round gray head and az pretty a little belly az enny man ever owned.

QUESTIONS:

1 Are you male or female? If so, state how long you have been so.

2 Are you subject to fits and if so, do you have more than one at a time?

3 What is your precise fiteing weight?

1 Did you ever have enny ancestors, and if so, how much?

5 What iz yure legal opinion ov the constitutionality of the 10 commandments.

6 Do yu ever have enny nitemare?

7 Are you married and live single, or are yu a bachelor?

8 Du yu believe in a futur state? If yu do, state it?

9 What are yure private sentiments about a rush ov rats to the head—can it be did successfull?

10 Have yu ever committed suicide, and if so, how dus it seem to affect yu?

11 Did yu ever hav the meezles, if so, how many?

After answering the above questions like a man, on the confirmative, the slick, little, fat, old feller, with goold specks on, sed I wuz insured for life and probably would remain so for a term ov years. I thanked him and smiled one of my most persuasive smiles

A CYNICAL lady in Meriden Coun., amuses herself with the polite hypocrisy of society, in a curious way. She has an orange plant in her parlor which bears neither bud nor blossom, but she has had two full-blown flowers and a half-open bud of wax placed upon the barren stalk. Her callers all admire the sweet perfume of the lovely flowers, and the gentlemen have noticed that the bud has expanded considerably since they called before.

THE hair on a camel weighs about ten pounds, and sells for about $100, which shows that it was not only in the days of Mohammed that the animal bore a great ppth.

A married lady complained that her husband had ill-used her. Her father, hearing it, boxed her ears. "Tell him," said the other, "that if he beats my daughter I'll beat his wife." Rather a pleasant prospect for a lady.

This Time the Joke is on General Butler.

A rather amusing story is in circulation at the expense of the eminent gentleman from Massachusetts, sometimes called 'Old Strabismus.' At the President's levee the other night, which was densely crowded, an old lady from the interior somewhere, in a fainting condition, requested her husband to get an ice.

'Can't be did,' responded 'hub,' in some irritation; 'there ain't no refreshments here.'

'Don't believe it. Didn't we get plenty at Belknap's the other night?' the good woman said, angrily. Now go and get me some ice and some lemonade

'I tell you don't be a fool; there ain't no refreshments; everybody says so,' grunted the lord and master

'You are quite mistaken, sir,' said the Hon. S S Cox, who happened to be near, and who never loses an opportunity to put in a joke. 'The President always provides substantially. There is his butler, whose business it is to show the ladies to the supper-room,' and the hon jester pointed to General Butler. 'You'll find him a little stuck up, cross, but you mustn't mind that. Tell him you want terrapins.'

This was said so gravely that the two struggled through the crowd to where the General stood talking to some ladies.

'I say mister are you the butler?' said the man,'

'I'm General Butler,' replied old Strabismus, pleasantly, thinking the pair, some country people filled with admiration of his greatness.

'I don't care, whether, you are the general butler or not, but my wife wants some terrapins and lemonade.'

'Sir?' snorted old B, in amazement and disgust.

'Oh, don't take on airs, old cock. Come, now, hurry up with them terrapins.'

'You must be drunk, sir! you must be drunk.'

'No, he ain't,' screamed the wife—he's a Knight Templar; he ain't drunk, but I think you are.

Roars of laughter greeted this, in which Mr. Cox was forced to join. General Butler reddened in the face and began puffing his cheeks out in a most violent manner.

'I don't understand this most violent conduct. What do you want, sir—what do you want?'

'Terrapins, I tell you.'

'What do you take me for, you cursed fool?' roared Benjamin.

'You call me a cussed fool and I'll hit you,' screamed the man.

At this juncture an officer of the police seized the belligerent husband and led him away, amid much laughter—*Boston Advertiser*.

Paralysis—Its Remarkable Prevalence

There is no city in the Union and no community in Europe of an equal extent as San Francisco in which there are so many paralyzed persons. Every person walking our streets must be struck by the number of those thus afflicted whom they meet. The victims appear to be of both sexes and to belong to every class—the banker, merchant, miner, mechanic and laborer. We are informed by a leading surgeon of this city that the increase of this affliction during the past two months is unprecedented. His own practice has called him to five cases which have occurred at the Occidental Hotel during the past month. He attributes many of the cases to mental anxiety, caused by speculation or the desire to obtain wealth rapidly. The subject is of considerable interest, and we should be glad to hear what any of our friends have to say about it.—Cal Republican.

A BURNT-OUT VICTIM'S GRATITUDE.—A Detroit man, who sent a generous bundle of cast-off clothing to the burnt-out victims in Wisconsin, has received from one of the sufferers the following: 'The committy men giv me, amongst other things, wat he called a pare of pants, and t'would make me pant some to ware 'em. I found your name and ware you live, on one of the pokits. My wife laffed so when I shode 'em to her that I thot she would have a conipshun fit. She wants to no if there lives and breathes a man who has legs no bigger than that. She sed if there was he orter be taken up for vagrincy for havin' no visible means of support. I couldn't get 'em on my oldest boy, so I used 'em for gun cases. If you have another pare to spare, my wife wood like to get 'em to hang up by the side ov the fire plase to keep the tongs in.'

According to a New York dispatch, Col. Rush Hawkins has resigned his seat in the New York Assembly, because that body has passed corrupt bills, and says that 'if all the honest members should resign, out of one hundred and twenty scarcely a full hundred would remain.'

A. GILMORE, MERCHANT TAILOR, and General Outfitter, has removed his place of business to the store adjoining the Colonial Hotel and opposite the Colonist Office, on Government street, fourth door from Yates, where he proposes to give his old friends and new customers a chance on the principle of quick sales and small profits. *

HOLLOWAY'S PILLS.—The blood is the very essence of health and life. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is the apparatus—the arteries the distributors, and the intestines the channels by which the waste matter is carried off. Upon the stomach and bowels these medecines act simultaneously. 25 cents per box or pot.

A Wholesome Stimulant that is Absolutely Pure.

Physicians thoughout the world agree as to the necessity of diffusive stimulants in medical practice, but complain, and with good reason, of the impossibility of obtaining them pure The difficulty he represented would be a serious one indeed, if the class of agents was limited to the adulterated liquors and wines of trade. It vanished, however, when the absolute purity and extraordinary restorative properties of Hostetter's Stomach Bitters are taken into consideration. As a stimulant the article is absolutely free from everything objectionable; but this is only one of its recommendations. If it were nothing more than an excitant its effects would be fleeting It might refresh and revive the system for a few minutes but could produce no permanent benefit. The stimulating elements of the Bitters is a means, not at end. The tonic, anti-bilious, depuritive and aperient vegetable juices combined in the preparation are the agents that impart vigor and regularity to the weakened and disordered organization, the spirituous principle being chiefly useful in diffusing their influence through the system and otherwise facilitating their operation. Alcohol, even in its purest form, is not so much a medicine as a motive power, by which the specifics of the vegetable kingdom may be brought to bear upon the debilitated and disordered organs that require renovating, and it is this way that the pure essence of rye incorporated in Hostetter's Bitters increases the efficacy of the purely medical ingredients.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of al respectable dealers throughout the Colony. *

HOLLOWAY'S

Every Man his own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.
